THE PERFECT PAIR: EXPLORING THE HARMONY OF PINK AND GREEN IN DESIGN

STYLED BY DETAILS DETAILS WEDDINGS AND EVENTS
PHOTOGRAPHY BY BRANDON KIDD

In the world of design, certain color combinations have the power to captivate and enchant, and one such timeless pairing is pink and green. Evoking a sense of whimsy, romance, and harmony, the delicate balance between these two hues creates a visual feast for the eyes. Jeannie from Details Details Planning dove head first into the magic of pink and green as a design this amazing event.

At first glance, pink and green may seem like an unlikely pairing, but it's precisely their contrasting qualities that make them so complementary. Pink, with its soft and feminine undertones, beautifully contrasts with the fresh and vibrant nature of green. Jeannie eye for harmony in design allowed her to choose the right shade of green, with our **Green Tea Aurora** table linen to balance out the peachy, pink in her florals and party favors.

Our line of Aurora table linen has a subtle tonal quality, intricately woven into the fabric, adding depth and dimension to every table setting. With its understated elegance and refined craftsmanship, the Green Tea Aurora table linen serves as the perfect canvas upon which Jeannie brought her vision to life, elevating the event to new heights of sophistication and style.

Bloom Box, who produced the florals for this event ran with the playful, whimsical feel. They created a bold focal point, that is balanced out by the scale of the table. From the blooms on the table and the fans are a repeating theme that tie the design together perfectly.
