# TREND: SERPENTINE TABLES

## HOW TO...

One of 2025's hottest wedding trends is the serpentine table—curved tables arranged in an elegant “S” or “O” shape.

They create a magical flow through a reception space and are fun to style.

Perfect to enhance the intimacy of an event and to break up otherwise symmetrical seating, these offer endless floor plans.

Each section of the serpentine table includes an 8-foot, C-shaped segment. To cover each C-shaped table properly, we recommend using a 132-inch round table linen for a seamless, elegant drape.
